## PET SITTERS WHO VISIT YOUR HOME

---

House minding can be a great alternative to kenneling. Your pets will avoid the stresses of travelling and adjusting to an unfamiliar environment. Being grouped with other pets can result in under- or over-eating, fighting, and, despite vaccinations, catching diseases. The minder can bring your pet in to us if necessary, where your pet's medical history is known. It also saves you that last chore of dropping off or picking up your pets at the busy start and end of your trip.
