BRAVE THE CRISP WATER AT CHOWDER BAY

It's a beautiful time of year for a bracing walk or a swim with your dogs. We are so lucky to have the Sydney Harbour National Park to enjoy again this Autumn.

Everyone's invited •

Don't forget Sunday 15th June 2014 is the date for this year's [Mini-Mos](#) Community Fun Fair. Come to Mosman Primary School between 10.30 and 2.30 to celebrate the end of the charity fun run and the start of the fair. Barracks Vet is sponsoring the [kindifarm](#) again, so say howdy to Dr James Ross and meet some cute and friendly farm animals. Children can enter our guessing and colouring competitions which were a big hit last year.

First Aid at your fingertips •

The Barracks Vet is proud to announce a FREE first aid app for all our clients. Once on your smartphone, scan the QR code at left or go to your app store for Apple or Android devices. Then do a search for "First Aid for Pets (Australia)". We really recommend you download and test it now, before something happens. This clear and simple app will guide you calmly through life saving techniques in unexpected medical crises.

Cooler weather •

As Autumn arrives, be on the lookout for arthritis, even in young pets. Symptoms include licking at joints, stiffness, reluctance to rise, walk or attempt steps. Early treatment is the key - this can involve a course of injections to slow progression, weight control with special diets, altering exercise patterns to lessen impact and anti-inflammatory tablets to reduce any discomfort.

Please follow us on [facebook](#) or [instagram](#) to see what goes on behind the scenes at the Barracks Vet and in our community of pets and their loving owners.

Cheers for now from all the team,
James, Tors, Tamsin & Lucy
